

Carrier Download Kit

To reduce the time, you spend manually managing paperwork and requesting information, you can now download both documents and policy-related data through Great American Insurance Group's Download Solution. Through daily automation, we work to ensure that the most up-to-date information is available when you need it through [IVANS Exchange](#). Learn more about IVANS Download [here](#).

Registration & Support

Turn on download by using your producer code, which is unique to each Great American Insurance Group division. Note that it is possible to have multiple producer codes within a given division. Request download by completing our [Online Registration Form](#) or report any issues by emailing AGT.DataExchange@gaig.com. We review and analyze feedback or download "wants" from IVANS Exchange on a weekly basis.

Company Origination Address

IBM513GREAT1

Policy Number Format

Policy Symbol + 7-digit alphanumeric Policy Number (no version or white spaces; example: ABC1234567)

eDocs & Messages

These divisions currently participate in eDocs & Messages:

- Agribusiness
- Alternative Markets
- Equine Mortality
- Executive Liability
- Property Inland Marine
- Specialty Human Services
- Trucking

Each transaction will have one associated document. If multiple documents are produced for a given policy transaction, two transactions (one for each document) will be sent. Documents are typically sent 1-2 days after they have been processed. The documents applicable to a given policy depend on the line of business and division in which the policy was written. Only insured copies of our policies are sent via download. Billing documents may not be available for all divisions, and we send copies for each additional insured. Most of documents available in our Agent Portal are available for download.

By default, both Policy and Billing Documents will be sent. However, download can be limited by electing to only receive Policy Documents or Billing Documents.

Policy Documents

The list below includes transaction types that are currently sent for Great American. Additional transaction types exist for IVANS and may be used for new business units if needed.

GAIG Document Description	Transaction	Activity Note

Commercial Download / Policy Data

These divisions currently participate in Commercial / Policy Data Download:

- Property & Inland Marine
- Executive Liability Division
- Alternative Markets
- Specialty Human Services

All policy transactions are sent through download, including but not limited to: New Business, Renewals, Endorsements/Policy Changes, Cancels, Reinstatements, Cancel/Rewrite, Audits etc. Transactions are typically sent 1-2 days after they are issued within our Policy Administration System(s).

For producers with business across multiple available downloads, all relevant policy transactions will be sent. However, you can now elect a specific download(s) (line of business) for a given producer code if desired.

The Current Term Amount sent in our Commercial Downloads is the Written Premium Amount. It will reflect all additional and return premiums.

Commercial Inland Marine

The Property & Inland Marine and Alternative Markets business units currently participate in the Commercial Inland Marine Download. This includes Builder's Risk, Contractor's Equipment & Motor Truck Cargo products.
