#### Defects Fixed

Item / Incident # / RRF	Description	Documentation
Values Disappearing on the Policy Information Screen (Strategic Comp and Specialty Construction Only)	Previously, when users would enter values in the fields on the Policy Information screen for a Large Deductible policy, the values would be cleared if the user opens the Add Schedule Mod menu on the Policy Information screen without saving the Policy Information screen first. This has been fixed and the values in the other fields remain when the user tries to enter Schedule Mod on the Policy Information screen.	
Cancellation Notice Fields Allowing Decimals	Previously, users were able to enter decimals in the fields for the Cancellation Notices on the Policy Information screen. This has been fixed and users can only enter whole numbers.	
Character Limits Not Working	Previously, several character limits were not preventing users from entering more characters than the limit. This has been fixed and users should not be able to go over the character limits for each field.	
Unable to Delete Federal Coal Mining Class Codes (CORE)	Previously, users were unable to delete a Federal Coal Mining class code on the Edit Exposures screen during a mid-term Endorsement. This has been fixed and users are now able to delete the class codes.	
Additional Interest Deletion (CORE)	Previously, when the user would delete an additional interest on a full-term or mid-term endorsement, the additional interest would be completely removed from the CUBE screen as opposed to the typical "soft deletion" where the entry has been crossed out. This has been fixed and additional interests are now "soft deleted" when the user deletes one on an Endorsement transaction.

#### Defects Fixed

Item / Incident # / RRF	Description	Documentation
INC168579/INC170211 - US364070	Updated the “Is Policy Auditable?” field so that it is not editable on a Mid-term endorsement. The field is now only editable on New Business, Renewal, rewrite and full-term endorsement.	
INC1720476/INC1724811/INC1746081	Resolved an issue where Information security protection (ISP) endorsements were not rating or printing correctly if the coverage was added, deleted & readded in the same open transaction. This applies to the coverages indicated below: <ul style="list-style-type: none"> <li>BP15017 – Information Security Protection</li> <li>BOP7210 – Limited Information Security Protection</li> </ul>	
TA571766	Duck Creek corrected the Building and Business Personal Property Certified Acts of Terrorism coverage rates for Texas in Bexar County. The system previously used a Building Certified Acts rate of 0.005; it has now been updated to 0.006.	
TA571763	Duck Creek made updates to ensure the Condominium Commercial Unit-owners Optional Coverage Loss Assessment is Flat coverage and will not pro-rate according to rule 29.A.5.c.(1).(b).	
TA571761	Duck Creek corrected the maximum amount for the Risk Flood Coverage Building limit to be the Functional Building Limit when the Rating Basis is set to Functional Valuation.	
DE83730	Upon changing the payment plan to “PrePaid” the Premium Change total on the Pricing screen was not updated correctly. This has been corrected.	

#### Known Issues / Work Around

Item / Incident # / RRF	Description	Workaround
-------------------------	-------------	------------

	<p>Page break Error on policies with a 7/1/25 effective date when coverage is deleted during a New Business transaction. This only impacts the coverages below, which are included in the BOP coverage form and should not be deleted, but the UI has a delete button. If that coverage is deleted, the user will get a page break error when navigating to the pricing page.</p> <ul style="list-style-type: none"> <li>• Business Personal Property Temporarily in Portable Storage Units</li> <li>• Business Personal Property Temporarily Away from Premises</li> </ul>	<p>Do not delete the coverage; if it is deleted, re-add the coverage. If the user accidentally deletes the coverage, they can add the coverage back on the policy and proceed to pricing.</p>
<p>Windstorm Construction/ Wind Mitigation Program</p>	<p>A defect was found while testing the new Georgia Windstorm Construction program. It was determined to be an issue with all states that use this program and have the IBHS Certificate Level. The states impacted are Alabama, Georgia, Louisiana, Mississippi, &amp; Oklahoma.</p> <p>When any value of N/A is selected for the IBHS Certificate Level on the building detail screen. If the IBHS Certificate level is anything other than N/A, a wind mitigation factor applies. However, the rating algorithm is incorrect and will overcharge the insured.</p> <p>None of the policies in production have a value other than N/A, so they are not impacted.</p> <p>When applicable, wind mitigation factor is used in the following coverages: Building, BPP, Building Automatic Increase, Damage to Premises Rented to You, Debris Removal Additional Insurance, Accounts Receivable, Business Income Dependent Properties, Outdoor Property, Valuable Papers and Records</p>	<p>None – Policy will rate correctly if the IBHS Certificate Level is left at its default value of N/A. The fix for this will be delivered in the August Major with a 9/1/25 effective date.</p>

#### Defects Fixed

Item / Incident # / RRF	Description	Documentation
DE82120/ INC1734380	Resolved an issue where <i>Cancellation Memo</i> IL8817 was showing an incorrect Date of Notice. This was reported by Alt Markets and fixed effective <b>6/1/2025</b> .	
DE82393/ INC1684905	The Rating Worksheet should now be stored in the attachments at the time of Bind. This was reported by SHS.	
US370659/ INC159103/ INC1626274/ INC1627149/ INC1627660/ INC1631819/ MK05753 INC1648164	Restricts users from editing the existing locations state after the policy has been rated or on an endorsement.	
DE77659/ INC1685302	Premium Audit Transaction goes to Hold when a Location and Risk are deleted in endorsement prior to audit. This was reported by Strategic Comp.	

DE84845	Crime/Property/SBP print jobs were updated to print CR0021 <i>Commercial Crime Coverage Form</i> with new 0622 edition date for all states (except CA) which was introduced with the ISO Crime Multistate Revision.	
TA568028	Resolved an issue that was causing the system to apply the Kentucky Municipal Tax minimum on a package policy for a location that was excluded.	
TA568029	Resolved an issue that was preventing the system from resetting the number of ratable employees after you removed an insuring agreement from a Crime policy.	
TA568055	Resolved an issue that was causing the system to apply the Kentucky Municipal Tax minimum on an Inland Marine policy for a location that was excluded.	
DE82482 / INC1735134	The attachment rules for CG8481 have been corrected, specifically for renewals, so that the form does not automatically attach. This was reported by Alternative Markets and fixed in the February Major release originally on a going forward basis. This defect is to implement the fix back to <b>6/1/2024</b> .	
US373851	Resolved a General Liability tax logic issue by enabling the system to use the total number of days a state is covered when determining the proportion of Policy Level premium to include in the tax calculation.	
TA568040 / TA568546	Property/General Liability: Duck Creek resolved an issue that was causing the system to apply the Kentucky Municipal Tax minimum on a package policy for a location that was excluded. In addition, Duck also resolved an issue that was causing the General Liability line level premium to generate the Kentucky Municipal Tax for the excluded location.	
TA568041	Duck Creek updates were made to ensure CG2694 10/08 <i>MISSOURI CHANGES – NOTICE OF CANCELLATION FOR LIQUIFIED PETROLEUM GAS RETAILERS</i> attaches as a mandatory form on a Pollution policy or when you add at least one of the following class codes on a CGL policy: 13410, 13412, 91111, 95648, or 98636.	
TA568044	Duck Creek resolved an issue that was causing the GL territory to be incorrect for multiple USPS ZIP codes in Pennsylvania.	
US364070 - INC168579/INC170211	Effective <b>7/1/2024</b> , the GL “Is Policy Auditable?” field has been updated so that it is not editable on a Mid-term endorsement. The field is now only editable on New Business, Renewal, rewrite and full-term endorsement. This was reported by Alternative Markets.  NOTE: The fix for 7/1/2025 and going forward will be implemented with July Major release under US383795.	
DE82260 / INC1733632	Effective <b>4/1/2025</b> , the GL HUB Rating Worksheet has been corrected in both the ‘Classification Summary’ and the ‘Risk Detail’ sections so that an additional \$0 third row doesn’t appear when a user adds the same class code twice (one with coverage type PremOps only and another with type Products only).	
DE85241	Effective <b>4/1/2025</b> , the GL rating worksheet Included Products Coverage section will now show as expected.	
DE84726	When CG2133 <i>EXCLUSION - DESIGNATED PRODUCTS</i> is added on a new business or renewal transaction and then an out of sequence endorsement is executed after, the endorsement transaction will no longer go into HOLD status.	
DE80942 / INC1715391	Property: CP0448 now attaches to California policies with ‘Functional Valuation’ selected on a ‘Tenants Improvements, etc.’ risk.	
DE85367	<i>Reported by Ocean Marine</i> – SBP: SB8316 <i>BACKUP AND OVERFLOW LIMITATION ENDORSEMENT</i> , SB8317 <i>BACKUP AND OVERFLOW EXCLUSION ENDORSEMENT</i> , and SB8318 <i>WASHINGTON BACKUP AND OVERFLOW</i>	

	<i>EXCLUSION ENDORSEMENT</i> now attach mandatorily when applicable option is selected for 'Discharge from Sewer' under a location.	
DE79235 / INC1700671 / INC1735806 / INC1743747	<i>Reported by Alternative Markets</i> – SBP: Fixed an issue that was causing a page break upon clicking on Policy Forms after changing a risk to 'Personal Property'. EPolicy output now generates as well after issuing if Policy Forms aren't accessed.	
DE82903 / INC1734890	SBP: Fixed an issue that was causing an out-of-balance for coverage SBPCOL when deleting a location on an Endorsement and then issuing an Audit transaction.	
TA68548	Property: Resolved an issue that was preventing the system from rating a policy again after you changed the Number of Days amount for Fungus coverage.	
TA68549 / TA68550	Property: Resolved an issue that was preventing applicable Functional Personal Property Valuation (Other Than Stock) forms from attaching for Tenant's Improvements risks. <ul style="list-style-type: none"> <li>• CP0439 – <i>FUNCTIONAL PERSONAL PROPERTY VALUATION (OTHER THAN STOCK)</i></li> <li>• CP0441 – <i>FUNCTIONAL PERSONAL PROPERTY VALUATION (OTHER THAN STOCK) - WASHINGTON</i></li> <li>• CP0448 – <i>CALIFORNIA – FUNCTIONAL PERSONAL PROPERTY VALUATION OTHER THAN STOCK</i></li> </ul>

#### Known Issues / Work Around

Item / Incident # / RRF	Description	Workaround
DE86876	On Liquor Liability Coverage Form policies with 6/1 effective and quote date, Liquor class code minimum premiums & all policy level endorsement premiums are not included as expected when determining the Kentucky Municipal Tax and Surcharges. This fix will go into the June Minor release.	N/A
DE86877	On Liquor Liability Coverage Form policies with 7/1 effective and quote date, Liquor class code minimum premiums are not included as expected when determining the Kentucky Municipal and Surcharges. This is a separate defect because an additional code change will be needed due to other tax changes that went in with this release effective 7/1 (US373851). This fix will go into the June Minor release.	N/A

Item / Incident # / RRF	Description	Workaround
DE87282	While testing US373851 (effective & in-service 7/1/2025), it was determined that any renewal or rewrite executed with these dates that had a transaction done on prior term to add or delete locations, will not have the correct taxes on renewal/rewrite. A fix is going into the June Minor release, effective 7/1/2025.	N/A
