Part I. Performance Information: Table 1

The Commodore Spirit® variable annuity contract is issued by Annuity Investors Life Insurance Company® (AILIC). The Commodore Spirit offers both variable and fixed investment options. The variable investment options are subaccounts of Annuity Investors® Variable Account B (Subaccounts). Each Subaccount is invested in shares of a registered investment company or a portfolio of a registered investment company (Portfolios).

Table 1 contains information about the performance of the Subaccounts. It shows how the Subaccounts have performed over time and allows a participant or beneficiary to compare them with an appropriate benchmark for the same time periods. Benchmarks do not reflect deductions for fees or expenses of the Subaccounts or Portfolios.

Past performance does not guarantee how an investment option will perform in the future. An investment in a Subaccount could lose money.

Benefits: Death Benefit Version 3	<p><u>Death Benefit.</u> The contract includes a death benefit payable to your beneficiary if you die during the accumulation period. Benefits: Settlement Options	<p><u>Settlement Options.</u> AILIC will make periodic payments in any form of settlement option acceptable to it at the time of an election. The standard forms of settlement options are: (1) payments for a fixed period you select; (2) payments for as long as you live and, if you select a fixed period and you die during the fixed period, payments for the rest of the period; (3) payments for as long as you live and, if the secondary annuitant you designate survives you, 50% of the payment amount for as long as the secondary annuitant lives; and (4) payments for as long as you live.</p> <p>Periodic payments under a settlement option are affected by various factors, including length of the payment period, life expectancy of the annuitant, frequency of the payment interval, and payment form selected. Benefit payments may be calculated and paid as a variable dollar benefit, as a fixed dollar benefit, or as a combination of both.</p>																		
Pricing Factors	<p>The cost of your right to receive annuity benefit payments and the cost of the death benefit are included in mortality and expense risk charge of 0.95% and the administration charge of 0.15%. The mortality and expense risk charge compensates AILIC for the mortality risks it assumes because of its obligation to make annuity benefit payments and death benefit payments, and for expense risks that AILIC assumes because its actual expenses in administering the Spirit contracts and Variable Account B could exceed the amount AILIC receives through other contract fees. The administration charge offsets expenses incurred in administering the contracts and the variable account. The rates shown are annual rates.</p> <p>The 1983 Group Annuity Table with interest at 3% per year, compounded annually, is used to compute all guaranteed settlement option factors, values, and benefits under your certificate.</p>																		
Fees	<p>A contingent deferred sales charge (CDSC) may apply on partial or full surrenders. The charge does not apply to earnings. The CDSC is calculated separately for each purchase payment. The CDSC rate depends on how many years have elapsed since the date of receipt of the purchase payment.</p> <table border="1" data-bbox="338 1036 1503 1101"> <thead> <tr> <th>Full years elapsed</th> <th>Less than 1 year</th> <th>1 year</th> <th>2 years</th> <th>3 years</th> <th>4 years</th> <th>5 years</th> <th>6 years</th> <th>7 years or more</th> </tr> </thead> <tbody> <tr> <td>CDSC</td> <td>7%</td> <td>6%</td> <td>5%</td> <td>4%</td> <td>3%</td> <td>2%</td> <td>1%</td> <td>0%</td> </tr> </tbody> </table> <p>An annual certificate maintenance fee of \$30 applies. It is deducted from amounts allocated to the variable investment options. A transfer fee applies to each transfer in excess of 12 in any certificate year. The current transfer fee is \$25. These charges and fees may be waived under certain circumstances.</p> <p>If loans are available under your certificate and you borrow money under the loan provisions, AILIC will charge interest on the loan. AILIC currently charges 6% interest on loans. AILIC will charge a higher interest rate if the plan administrator directs AILIC to do so.</p>	Full years elapsed	Less than 1 year	1 year	2 years	3 years	4 years	5 years	6 years	7 years or more	CDSC	7%	6%	5%	4%	3%	2%	1%	0%

Limitations	<p><u>Limitations on Annuity Benefit Payments.</u> If the amount of any regular payment under the form of settlement option elected would be less than \$50, an alternative form of settlement option will have to be elected. Unless AILIC agrees otherwise, your annuity commencement date generally cannot be later than the certificate anniversary following your 70th birthday. A fixed period of less than five years is available only as a death benefit settlement option.</p> <p><u>Other Contract Limitations.</u> Restrictions and limitations on purchase payments, allocations, transfers, withdrawals and active trading are summarized in the chart set out below Table 3.</p>
