Dear Insured

Our records indicate you have a 2024 Value Per Acres (VPA) or Production Hail policy (continuous hail policy) with Crop Risk Services that automatically renews each season unless the policy is non-renewed, cancelled, or revised. That policy number is listed above.

Crop Risk Services was purchased by American Financial Group (serviced by Great American Insurance Group) in July of 2023 and therefore will no longer be writing policies under the Crop Risk Services name. As such your policy will not renew and you will need to apply for coverage on a new application for the 2025 crop year. While you have options on who you write your policy with, we hope that you will continue to write your policy with Great American Insurance. Please reach out to your agent to discuss your options.

We thank you for being a valued policyholder with Crop Risk Services, and we hope to continue the relationship we have built with you through Great American Insurance Company.
