

# M711 Revenue Loss Worksheet & Production Report Guide

This guide will explain how to use the revenue loss worksheet for determining potential revenue loss situations. This report also performs a dual purpose of a current year production reporting form. Only available for plans with APH databases (PP acreage lines will not print on the report). This report will pre-print entered production and/or claim data. It can also be annotated/DocuSigned and batch printed.

## M711 - Print Options

This form is available within the Agency Landing Page, Accounts tab using the Reports menu or the Printer icon. Reminder, you can click the Star to save as a favorite (moves to the top) and all your options will save as user preferences.

**Version** - Draft will print the word “DRAFT” as a watermark on the report. The Official version will not print the watermark.

## Options

**Include Zero Acre Lines** - If checked, this will show all lines on the policy regardless of having acres.

**Use Comment Screen** - This option provides a screen where you can enter comments and upon saving will appear in the Crop File Management System (CFMS) as a comment.

**County Crops** - You can select all or individual county/crops for this report.

**Add Signature Lines** - If selected this will print all the required statements and insured signature area. Reminder only the insured’s signature is required on a production reporting form.

**Print Only Crops with YE** - This option came from the existing M202 APH report and will only show county/crop lines that have the Yield Exclusion options elected.

**No Longer Farming**- If marked and if lines are marked as uninsurable with the “No longer in Farming Option” code, these lines will not print on the report.

**Dates** - The report can be run by using date ranges for either Production Reporting, Sales Closing or Price Discovery dates. The price discovery is the date the harvest price was officially released by RMA.

M711 - Revenue Loss Worksheet and Production Report

09/23/2022 04:24 PM - Mike Peterson

The report will be stored in the document tree (CFMS) when generated.

# M711 Revenue Loss Worksheet & Production Report Guide

**Insured and Agency Information** - The top part of the report will show our standard insured, agency and signing authority information.

**Price Summary** - The Price Summary will show all the crops that were selected to print. This will only show projected and harvest prices for revenue plans of insurance. The price for non revenue plans will be shown in column 'L', in the price box. There is a county/ crops banner that shows the county, crop, plan, coverage level and options, along with any assignments, along with a new producer checkbox. Column Descriptions:

I) Total Production Post and Pre-Quality - The amount of production for line/unit. If claim or entered production exists it will pre-print.

J) Acres - Acres for the line. Yield/Acres - Total production / Acres. If claim or entered production exists it will pre-print.

K) Approved Yld - Approved yield for line. T-Yld - The T-Yield for the line.

L) Price - The price used in calculating the Total Loss Liability. Total Loss Liability - Will show TBD (To Be Determined) if the harvest price is not official. Approved Yield X Cov Level X Acres X Price (if RP use higher of projected or harvest) X share (the approved yield would be adjusted for late planted acres - if applicable).

M) Harvest Price - Shows TBD until the harvest price is officially available for revenue plans. Non revenue plans will show the price used to establish the premium.

N) Share - The share percent for the line. Multiple Crop - The multiple cropping code for the line, refer to the legend page.

O) Total Revenue (I X M X N) - This can be calculated using Total Production (I) X Harvest Price (M) X Share (N).

P) Loss Trigger Yield/Acre - Shows TBD until the harvest price is official. Approved Yld X Cov Level. Loss Trigger Prod /Line- Loss trigger yield X Acres

**Estimated Unit Indemnity Calculation** - This area can be used to summarize by selected unit structure the total unit liabilities and revenue to determine if there is a potential loss.

# M711 Revenue Loss Worksheet & Production Report Guide

## Example - EU Selected Unit Structure with Mix of Yields over/under guarantee

This example shows the two official prices for revenue plan wheat in South Dakota for Winter and Spring types.

The winter wheat had a projected price of \$7.10 and a higher harvest price of \$8.72.

The spring wheat had a projected price of \$9.19 and a lower harvest price of \$8.95.

Using the first line-123 spring wheat, here are the column calculations:

I) Entered total production amount on the report or pre-printed if already entered.

J) Yield/Acre - 3,664.8 / 159.34 acres = 23

L) Price - Higher price of \$9.19. Total Loss Liability- 35 Approved Yld (K) x .65 (Cov Level) = 22.8 Guar x 159.34 Acres (J) = 3,633 bu

3,633 bu x \$9.19 Price (L) = \$33,387 x .837 Share (N) = \$27,945 (L)

Line-59 winter wheat calcs 57 Approved Yld (K) x .65 (Cov Level) = 37.1 Guar x 158.55 Acres (J) = 5,882.2 bu

5,882.2 bu x \$8.72 Price (L) = \$51,293 x .8371 Share (N) = \$42,937 (L)

O) Total Revenue - Column I x M x N      Line 123 = 3,664.8 x \$8.95 x .837 = \$27,454      Line 59 = 4,439.4 x \$8.72 x .8371 = \$32,405

Estimated Unit Indemnity Calculation: Total Unit Liability = sum of total loss liability (L) Total Unit Revenue = sum of total revenue (O)

M711 Revenue Loss Worksheet & Production Report Guide

**Example - Optional Units** - This shows a Georgia corn selected optional unit structure example. The projected and harvest prices are official with the harvest price being higher than the projected price.  
The OU Units 0001-0018 and 0001-0058 show that they are in a revenue loss situation and a claim should be turned in. If no production has been entered in GreatAg or from a paid claim the Minus Total Unit Revenue amount will be blank.

# M711 Revenue Loss Worksheet & Production Report Guide

## Required Statements and Signature

The privacy, non-discrimination, new producer and certification statements will print on the last page. Along with the area for the insured to certify the production reported on the form. If there are any authorized representative, limited authorized rep or POA's names already entered, they will pre-print in this area.

**COLLECTION OF INFORMATION AND DATA (PRIVACY ACT) STATEMENT Agents, Loss Adjusters and Policyholders:** The following statements are made in accordance with the Privacy Act of 1974 (5 U.S.C. 552a): The Risk Management Agency (RMA) is authorized by the Federal Crop Insurance Act (7 U.S.C. 1501-1524) or other Acts, and the regulations promulgated thereunder, to solicit the information requested on documents established by RMA or by approved insurance providers (AIPs) that have been approved by the Federal Crop Insurance Corporation (FCIC) to deliver Federal crop insurance. The information is necessary for AIPs and RMA to operate the Federal crop insurance program, determine program eligibility, conduct statistical analysis, and ensure program integrity. Information provided herein may be furnished to other Federal, State, or local agencies, as required or permitted by law, law enforcement agencies, courts or adjudicative bodies, foreign agencies, magistrate, administrative tribunal, AIPs contractors and cooperators, Comprehensive Information Management System (CIMS), congressional offices, or entities under contract with RMA. For insurance agents, certain information may also be disclosed to the public to assist interested individuals in locating agents in a particular area. Disclosure of the information requested is voluntary. However, failure to correctly report the requested information may result in the rejection of this document by the AIP or RMA in accordance with the Standard Reinsurance Agreement between the AIP and FCIC, Federal regulations, or RMA-approved procedures and the denial of program eligibility or benefits derived therefrom. Also, failure to provide true and correct information may result in civil suit or criminal prosecution and the assessment of penalties or pursuit of other remedies.

**NONDISCRIMINATION STATEMENT: Non-Discrimination Policy**  
In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident. Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English. To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at [How to File a Program Discrimination Complaint](#) and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: [program.intake@usda.gov](mailto:program.intake@usda.gov).

**NEW PRODUCER CERTIFICATION STATEMENT:** I certify that I have not produced the insured crop in the county for more than two APH crop years. I certify that I was not a member of another insured entity as a substantial beneficial interest holder, which produced the insured crop in the county for more than two APH crop years. I certify that any substantial beneficial interest holders for the policy in which new producer status is requested, have not produced the insured crop in the county for more than two APH crop years.

**CERTIFICATION STATEMENT:** I certify that to the best of my knowledge and belief all of the information on this form is correct. I also understand that failure to report completely and accurately may result in sanctions under my policy, including but not limited to voidance of the policy, and in criminal or civil penalties (18 U.S.C. 8106 and 81014; 7 U.S.C. 81506; 31 U.S.C. 83729, 83730 and any other applicable federal statutes).

## Batch Reporting

The M711 report can be batch printed using our Batch Reporting System. Batching is located in our Reports menu. The print options available match the single print options.

Reports ▾ MPC1 ▾  
Batch Reporting System

The 'Print for Selected' options for the M711 form allow you to select a specific plan(s) and/or crop(s) and only those selected will print on the form. This will only work this way for the M711 as shown in the information hover 'i'. All other forms will still print all plan(s) and/or crop(s) for the policy if the selected plan/crop is on the policy.

## Annotation/DocuSign

Please use our guides to learn more about batching and Annotating/DocuSigning. Located in our GreatAg menu under Training- GreatAg.

# Revenue Trigger and ADM Price Lookup

## Revenue Trigger and ADM Price Lookup

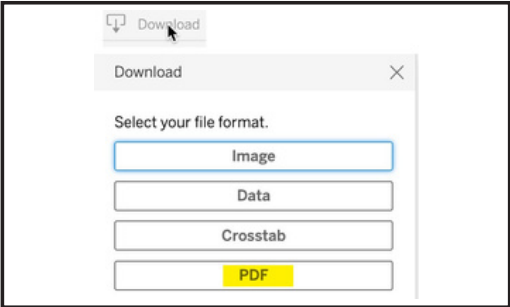

There are two references reports that can be used in conjunction with revenue plans of insurance. These are located in the Documentation menu under GA Actuarial Info. You will be prompted to login to view these reports. Use your same GreatAg username and password to login. If you have trouble accessing, please contact your regional office.

## Revenue Loss Triggers

This report will allow you to select a crop, plan and enter a starting and ending APH yield, along with the projected and harvest prices. The grid will reflect your APH yield range and the coverage levels across the top. The intersecting APH and coverage level will indicate the loss trigger yield. Note the 23.4 trigger yield matches the loss yield trigger (column P) page 3 of this guide for line 123.

## ADM Price Lookup

This report uses the RMA ADM price data based on the filters you select. It will show revenue and non-revenue plan prices. If you want to show the counties use the ‘+’ in the state column. You can use the top menu ‘Download’ and PDF to print the screen results.
