

Great American Fidelity/ Crime Division's Automated Teller Machine Jackpotting Coverage

Automated Teller Machines (ATMs) are at risk today of losses from Jackpotting. These losses are caused by thieves that have triggered malicious software attacks that cause a Financial Institution's Computer System to have their ATMs disperse huge amounts of money without the normal use of a debit, credit or access card. Losses can also occur when an unauthorized device is attached to an ATM of a Financial Institution and causes a wrongful disbursement of money.

Realizing that losses such as these are not normally covered under traditional Crime Insurance Products, Great American Insurance Company's Fidelity / Crime Division has created a coverage Rider to be attached to Financial Institution Bonds we offer, that provides:

Specialized Coverage

- Per Loss Limits of Liability up to **\$2.5 million**.
- Coverage for loss caused by malicious software attacks that cause an Automated Teller Machine Jackpotting event to occur.
- Coverage for loss caused by the unlawful disbursement of money due to a fraudulent or malicious insertion of an unauthorized connected device to an ATM.
- Deductibles as low as **\$10,000**.
- Competitive pricing.

With Great American you'll find:

- A leader in providing Crime Insurance to Financial Institutions
- Underwriters with extensive industry experience in dealing with Crime Insurance exposures.
- An experienced Claims Department dedicated solely to Crime Insurance claims.
- Coverage available in the United States and Canada.
