

## Automatic Sprinkler & Life Safety Plan Reviews

### Did you know?

Great American's Loss Control team offers *Automatic Sprinkler & Life Safety Plan Reviews* as part of its service offerings to agents appointed with Great American? With a National Fire Protection Association (NFPA) Certified Fire Plan Examiner on staff, we can review new construction, renovation or existing building blueprints to approve automatic sprinkler protection and life safety/emergency egress plans.

### Why is this important?

The automatic sprinkler system installed in the building might not be capable of protecting the contents and structure, which could potentially result in significantly higher property losses (including 100% Total Loss) if a fire were to happen. This situation can create a false sense of security and protection for everyone involved. It can also mean that building occupants are not able to evacuate the building during a fire, resulting in loss of life.

### How does a Loss Control Automatic Sprinkler Plan Review help?

A thorough sprinkler plan review can help prevent a significant fire loss. When plans are reviewed before installation and/or construction, policyholders can potentially save thousands and even tens-of-thousands of dollars that may be spent to retroactively correct a poorly designed system. Many times, the cost to rectify a poor design prior to installation are negligible. Best of all, by conducting a Plan Review, the premises will be more adequately protected, thus minimizing a major fire event. This is an immediate benefit to both agents and policyholders!

## How do I order a Plan Review from Great American Loss Control?

Contact your agency executive or underwriter for more information or visit [gaig.com/lp](http://gaig.com/lp).
