

Defensive Driving – Passenger Management

Defensive driving is driving so as to prevent accidents in spite of the incorrect actions of others or adverse driving conditions, such as weather, traffic, lighting, vehicle or road condition, or the driver's physical or mental state. The defensive driver assumes that other drivers may make mistakes and is on guard in the event an error is made.

Your safety program should include defensive driver training about the proper way to manage passengers. Passengers can distract the driver, physically interfere with the driver, restrict the driver's freedom to maneuver aggressively for accident avoidance, and injure themselves by not sitting properly in designated seating positions. Whatever the case, the driver must manage the passengers to avoid such problems. The following are management areas that should be addressed regarding defensive driving and tips to provide your drivers to help them become defensive drivers.

Management Issues

	Yes	No
Have drivers been trained to manage passengers for safe transportation?	<input type="checkbox"/>	<input type="checkbox"/>
Do you periodically provide retraining?	<input type="checkbox"/>	<input type="checkbox"/>
Do you know if your drivers are practicing safe passenger management?	<input type="checkbox"/>	<input type="checkbox"/>
Do you periodically have qualified personnel ride with your drivers to assess their driving habits?	<input type="checkbox"/>	<input type="checkbox"/>
Do you require drivers to make pre-trip announcements to passengers requesting their cooperation in maintaining safe conditions?	<input type="checkbox"/>	<input type="checkbox"/>
Do you inform customers of the need to follow rules of conduct and to act safely when they charter a bus?	<input type="checkbox"/>	<input type="checkbox"/>
Are drivers aware of the concept of a 'preventable accident'? A preventable accident is one in which the driver failed to exercise every reasonable precaution to prevent the accident. This is irrespective of the extent of property damage and/or personal injury, to whom it occurred or the location of the accident.	<input type="checkbox"/>	<input type="checkbox"/>

Passengers can distract the driver, physically interfere with the driver, restrict the driver's freedom to maneuver aggressively for accident avoidance, and injure themselves by not sitting properly in designated seating positions.

Driver Tips

To be a defensive driver when dealing with passengers, your drivers should:

- Not drive if passengers are in an unstable position. The driver might feel restricted to aggressively brake or steer to avoid an accident.
- Not drive if standing passengers are too close, as they may fall onto the driver, causing the driver to lose control.
- Make announcements informing passengers of their responsibility to act safely.
- Stop the bus, if passengers refuse to cooperate, until the driver is satisfied that it is safe to continue driving.

The loss prevention information and advice presented in this brochure are intended only to advise our insureds and their managers of a variety of methods and strategies based on generally accepted safe practices, for controlling potentially loss producing situations commonly occurring in business premises and/or operations. They are not intended to warrant that all potential hazards or conditions have been evaluated or can be controlled. They are not intended as an offer to write insurance coverage for such conditions or exposures, or to simply that Great American Insurance Company will write such coverage. The liability of Great American Insurance Company is limited to the specific terms, limits and conditions of the insurance policies issued.
