

Oil & Gas Equipment

Maximum Protection and Flexibility

Oil and gas production is a multifaceted operation that requires a variety of equipment. Depending on the phase of the site, your equipment needs can change from week to week. No matter what is on site, you need to be sure it's protected. Whether you own, rent or borrow, we'll help protect it so you can stay focused on your operations.

Policies that Deliver Peace of Mind

Be sure your equipment is protected with a competitive and flexible policy that goes beyond the basics with automatic coverage for the unexpected:

- Covered property includes oil well drilling, workover and servicing tools and equipment.
- Automatic coverage for expenses that are often overlooked such as Debris Removal, Pollution Clean-up, Fire Department Service and Crime Reward.
- Coverage for loss of drilling compounds while at a drilling or workover site up to \$5,000.
- No exclusions for flood or earthquake which means better coverage and a more competitive product.
- Automatic Acquisition Coverage Form eliminates the need to endorse the policy for schedule changes, which lowers servicing expenses and ensures that even your newest property is covered (subject to a newly acquired limit).

Flexible Coverage Options

Tailor the policy to meet the unique needs of each site with a variety of optional coverages:

- Plus Endorsement provides a broader policy to insure incidental loss exposures: includes Equipment Leased, Rented or Borrowed from others, Continuing Rental Expenses, Loss to Undamaged Attachments, and Removal Expense.
- Loss of Business Income and/or Extra Expense coverage addresses the indirect loss exposure often associated with covered physical losses of unique equipment.
- Oil & Gas Equipment Leased and/or Rented from others on a short-term basis (<12 consecutive months).
- Underground buy-back endorsement that covers portions of specified property while underground.
