

Professional Liability Coverage

Professionals are the heart of human and social service organizations. They provide services and advice that require specialized education, judgment and skill. If clients or family members feel harmed by these services or advice, it presents a significant professional liability exposure and could open an organization up to a lawsuit. Because of this, Great American's Specialty Human Services offers Professional Liability coverage designed to protect an organization and the professionals who work for it.

The Great American Advantage

► Industry-leading Coverage

Separate coverage limits – Our Professional Liability limits are separate from the Commercial General Liability and Abuse or Molestation coverage parts. A Professional Liability claim will not reduce the coverage available for Abuse or Molestation or Commercial General Liability losses.

Defense and expense costs outside limits – Claims related to accusations of professional acts, errors and omissions can incur high costs, including settlements, judgements and other obligations. Once you add in defense costs, the policy's limit can quickly erode. Therefore, our Professional Liability coverage provides payment for related costs outside of the coverage limits.

Limits for any size organization – Primary limits up to \$1 million per occurrence and \$3 million aggregate. Additional excess and umbrella limits of up to \$15 million are available.

A broad definition of "professional services" – We define professional services as any service that involves specialized education, knowledge, labor, judgment and skill that is predominately mental or intellectual. We do not limit coverage to professionals who have a degree or license.

A broad professional coverage grant – The coverage pays those sums that the insured becomes legally obligated to pay as damages because of any act, error or omission for the rendering or failure to render a professional service.

Professional Liability Extension Endorsement – This provides coverage to the named insured for vicarious liability of certain volunteers or independent contractor professionals that provide services for the organization.

The flexibility of occurrence or claims-made coverage – Coverage is available on an occurrence or claims-made basis.
